📍 Imadol-02, Lalitpur

DevOps Engineer focused on on-premises server setup, Linux administration, and automation. Proficient in Bash scripting, Python, Kubernetes, and AWS, with hands-on experience in CI/CD, infrastructure automation, and container orchestration. Currently preparing for the Certified Kubernetes Administrator (CKA) certification.

Skills

Operating Systems & Scripting	• Windows/Linux, Bash scripting, Python
Cloud & Infrastructure	• AWS (EC2, EKS, S3, IAM, Lambda, DynamoDB, CloudWatch) • On-premises server setup, VM-based infrastructure
Containers & Orchestration	• Docker, Kubernetes • Rancher, Argo CD • Harbor (container image registry)
Configuration Management & Automation	• Ansible, CI/CD pipeline implementation
Monitoring, Logging & Storage	• Grafana, Elasticsearch • MinIO (object storage)
Version Control & Collaboration	• Git, GitHub, GitLab
Messaging & Streaming	• Apache Kafka.
Security & Secrets Management	• HashiCorp Vault

Experience

DevOps Engineer

eSewa Ltd. | Jul 2023 – Present

- Set up and maintained on-premises servers according to application and infrastructure requirements.
- Collaborated with developers to understand module needs, configure CI/CD pipelines, and support deployment workflows.
- Implemented a DevSecOps (SonarQube, Trivy, OWASP) Tools on the Jenkins pipelines.
- Automated logging, storage tasks, and operational routines using Bash scripting and Python.
- Implemented secure secrets and credential management using HashiCorp Vault.
- Managed and optimized container images using Harbor, and configured MinIO for object storage.
- Deployed applications on VMs, on-prem K8S/K3S clusters, and AWS EKS using Ansible and Argo CD.
- Configured and maintained load balancers and reverse proxies (Nginx, HAProxy, Apache HTTPD).
- Debugged deployment and runtime issues through log analysis and system monitoring.
- Implemented monitoring and observability using Grafana, Elasticsearch, and related tooling.

System and Network Engineer

Braindigit IT Solutions | Jan 2022 – Jul 2023

- Administer and maintain IT infrastructure including Windows, Linux, NAS servers, network devices, and Fortigate firewalls.
- Install, configure, and upgrade hardware/software while performing system diagnostics, troubleshooting, and technical support.
- Manage server operations such as IIS hosting, database backup/restore, Zabbix monitoring, GLPI asset management, and SSL/domain administration.
- Implement automation through Windows scripts, maintain documentation, and oversee data backup and archiving processes.
- Monitor network performance, identify issues, and support continuous optimization of systems and services.

- Assisted in monitoring and maintaining computer networks, servers, and basic IT infrastructure.
- Helped install, configure, and update hardware, software, and operating systems.
- Supported troubleshooting tasks by identifying system or network issues and providing basic technical support.
- Assisted in data backup processes, documentation, and asset management activities.
- Gained hands-on experience with server management tools, website hosting, and network performance monitoring.

Certifications

AWS Solutions Architect – Associate

Broadway Infosys Pvt. Ltd. (80 Hours)

Duration: (24th August 2025 – 11th November 2025)

Data Science and Machine Learning in Python

Deerwalk Training Center, Siphel, Kathmandu

Duration: 3 Months (21st Sept 2021 to 10th Dec 2021)

CCNA (Routing and Switching V3)

Nepalese Institute of Technology Pvt. Ltd., Tinkune, KTM

Duration: 3 Months (20th Dec 2018 – 12th Feb 2019)

Strengths

- Strong collaboration and communication skills, with experience working closely with developers and cross-functional teams.
- Quick learner and problem-solver, effective at debugging infrastructure and application issues through log analysis and monitoring.
- Proven ability to translate application and business requirements into reliable, automated infrastructure and deployment solutions.

Education

College of Information Technology and Engineering.

2016-2020

- Bachelor of Information Technology (BIT)
- CGPA: 3.47
